\* The square footage and the type and quantity of fixed details are the key factors that affect price. It takes more time to create a 300 sq ft gourmet kitchen, for example, than a 300 sq ft bedroom, so ultimately I will need to speak with you directly about the project and see photos before giving a firm quote.

“ I cannot say enough great things about Denise and her 3D Virtual Design services. I have used CAD services in the past and this goes way above and beyond that.”
